Jackson County Health Department Expands Access to Services

The Jackson County Health Department is pleased to announce it will be open Monday through Friday starting July 2nd. Since the State budget impasse was over-ridden in July 2017, the agency under the direction of the Jackson County Board of Health has earned state funding, support from the Jackson County Board and expanded grants from non-governmental sources so that the department is on solid financial footing and can return to a 5 day per week schedule. The regular schedule for all divisions will be Monday through Friday, 8:00 a.m. until 4:00 p.m.

Starting Tuesday, July 10th, the front building nursing clinic and WIC program will offer services until 5:30 p.m. every Tuesday.

The health department remains committed to protecting your health by providing services to prevent infectious and chronic disease, and working with the community to prepare and respond to public health emergencies.
